BCC Event Recap

Annual Business Meeting: Tuesday, June 6

This year's closing meeting was packed with year-end awards, a fund-raising raffle, and an inspiring presentation from our guest speaker Derrick Zellmann. The club's year-end awards give recognition to both members and photographs that competed in the year's Print and Projected Image competitions.

2016-2017 Latimer Print of the Year: "In Their Elements" @ Gordon Saperia.

What are the Year-End Photograph Awards?
These awards are given to specific photographs that won first place awards throughout the year's competitions. Members vote for their favorite photographs from among the year's first place images in each of the Open A, Open B, and Special categories. Separate awards are given for Print and Projected Image entries. The first place images become eligible to be chosen as the Image of the Year.

Congratulations to Gordon Saperia for winning Latimer Print of the Year with "In Their Elements" and to David Long for winning Projected Image of the Year with "Building a Nest"!

2016-2017 Projected Image of the Year: "Building a Nest" @ David Long.

What are the Year-End Member Awards?
At the end of each year, the Print and Projected Image competition chairs calculate each member's total award score for the images entered into their respective competitions. Based on the member's cumulative score, 1st, 2nd, and 3rd place awards are given to those members who have the highest scores within the Open A, Open B, and the Special categories. The member who wins first place in the Open B category automatically moves into Class A level for all future club competitions. This year Don Craig from the Latimer Print competition and Molly Johnston, Kevin Myron, and Sarah Strong from the Projected Image competition will move to A.

This year's member winners and all winning images are published below and posted on the web site at: https://www.bostoncameraclub.org/d/0178688f-56f8-4f62-b3db-6d6a37f179f7

The Raffle
Thanks to the generosity of photographers, photography businesses, and our own members, the money raised from this year's raffle will go towards funding the club's programs. This year Executive Committee members offered workshops as raffle items. Members embraced these workshops with some members placing all their raffle tickets in one workshop bin. Next year, all members will have the opportunity to offer a workshop raffle item based on their photography area(s) of interest. The raffle prizes offered this year were:

- Blue Hour Photos (Paul Nguyen): $85 gift certificate to a tour
- Newtonville Camera: One $25 gift certificate
- Hunt's Photo and Video: Four $25 gift certificates
- The one-of-a-kind Boston Camera Club 18% grey T-shirt
- Steve Dunwell's Beautiful Photo Book: Extraordinary Boston

Member Workshops included:
- Jurgen Lobert: Daytime Long-time Exposure
- Anna Golitsyna: Portraiture Photography
- Ron Abramov: Personal Critique and Lightroom
- Beth Luchner: Create a website using WIX
- Jim Mollenauer: Photographing Wildlife

About Guest Speker Derrick Zellmann:
Derrick gave a 30-minute presentation about himself, his path to becoming a photographer, and his project "Facing the Fire" — an ongoing project photographing Boston firefighters. Derrick graciously framed and donated one of his firefighter's photographs for the club to auction. The proceeds from the auction, with David Long providing the highest bid, will be donated to the firefighter charities Derrick supports.

Field Trip Competition Winners

1st Place

Jump - Jürgen Lobert

This is a photo taken during our October of 2016 field trip at the Carver moto cross races. It is a panning shot where the photographer pans the camera at about the same speed as the moving object. The background is blurred on purpose to suggest the fast motion of the racer. The technique needs some practice to pan at the right speed, and the correct shutter speed. Too short (e.g., 1/250th s) would freeze the background and not create the motion blur. Too long and it is impossible to freeze the biker in mid air. I found 1/90th second to be most useful, 1/60th didn't give me a tack sharp object. Nikon D4 on burst mode with a 70-200mm at 200mm lens and ISO 400 with centered spot focus.

Secret Room - Jürgen Lobert

Open A Winners

1st Place and overall Latimer Print of the Year

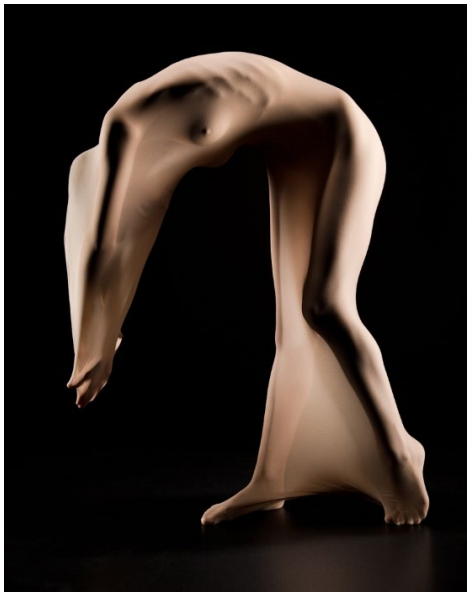
In Their Elements - Gordon Saperia

This photo was taken mid-afternoon in December 2016 in the Yukon, Canada. A group of us were shooting on a large open lake where dog sled teams were going by. The temperature was -5 degrees F. Most of the post processing (LR, PS, Nik) work involved exposure adjustment, conversion to BW, slight crop, and highlighting certain areas. Taken with the Nikon D810, at 70 mm (Nikon 70-200mm), ISO 800, f/6.3, and 1/1600 sec.

2nd Place

Valensole Dawn - David Long

3rd Place Tie
Bending Over - Bert Halstead



3rd Place Tie
White Pocket at Sunrise - Gordon Saperia

Open B Winners

1st Place
Natalie and Nestlings

Housing is hard to come by in Silicon Valley for all species, and even small backyards have a resident pair of Anna's Hummingbirds. This female (named Natalie) placed her nest on a palm frond that protruded into our back porch. She was very tolerant of our presence, and seemed un-fazed by a long telephoto lens and DSLR sitting on a step-ladder about 8 feet from the nest. Incubation to fledging took from mid-June to mid-July - this photo was taken one day before the elder chick and two days before the younger chick fledged. Newly fledged chicks can only take short flights ending in a crash, so mom still has a lot of training to do once the nest is empty. The highly territorial male does not participate in child rearing. Canon 500mm f/4 at f/8 with 3 extension tubes, 1/160s ISO 200 EOS 1Ds III, diffused 580EX II Speedlight.

2nd Place
Nubble under Rainbow - Ivan Sipos

3rd Place
Dom Luis I Bridge - Don Craig

Special Winners

1st Place
Water in Space - Ron Abramov

Was taken on a piece of glass, with some objects behind it to create some colors and patterns reflection in the water droplets. My goal was to create an interesting image of shapes and colors.

The Image was taken with a Nikon D600 and a 90mm Tamron lens. f/45 100 ISO, 0.8 Sec on a tripod, using natural light

2nd Place
Woman in Body Hose - Bert Halstead

3rd Place
Haircut Day - Yair Melamed

Open A Winners

1st Place
Zebraplay - Ilya Schiller

Canon 7D with EF200-400 lens. Exposure: 1600 at f/7.1 with ISO 400. Taken in Kruger Park S. Africa. It is known that after zebras drink, they like to play. Sounds familiar?!
Here we were waiting by the water hole and were ready when a group of zebras got in to the play mode and displayed what they can do.

2nd Place
Lightning Storm - Ron Abramov

3rd Place
Garlic Up Close - Ed Esposito

Open B Winners

1st Place
Manhattan Bridge - Jerry Jaeger

During the afternoon of March 16, 2016, my wife and I attended a free 3 hour night photography seminar at the B&H Photo store in Manhattan. This was presented by Lance Keimig and other night photographers kicking off their "National Parks at Night" photo tours. In the evening my wife and I and about 30 other attendees went over to the Brooklyn Bridge park to try out the techniques we had learned during the seminar.

I set up my Canon EOS 7D camera with EF 24-70mm F/2.8L II USM lens on a tripod. A rain storm had just passed through leaving the sky overcast with low clouds that evening between 8 and 9pm. The NYC lights building/street lights, reflecting off the clouds, created a nice orange/brown glow in the sky. Setting the aperture to f/11 created nice star bursts of the lights on the bridge and the 10 sec slow shutter speed helped smooth out the water waves and clouds. A number of practice shots were taken to achieve the effects that I was looking for. I set the ISO to 200 to keep the camera noise low. During post processing, I used a little sharpening with Photoshop to bring out the details of bridge structure. I also used Photoshop dodge tool to lighten the bottom of the bridge bringing the details out of the shadow. Luckily the Empire State Building was illuminated red, white and blue that evening allowing an additional point of interest. All-in-all I think I was able to capture the breath-taking view that was seen before us that evening.

2nd Place Tie
Distant Friends - Fern Fisher

2nd Place Tie
Touchdown - Mari Ryan

2nd Place Tie
Yellowstone - Dimitri Bertsekas

Special Winners

1st Place and Overall Projected Image of the Year

Shot w/ Canon 5D Mark iii and Canon 70-300L lens, 228mm at 1/1600 @ f/8 ISO 800.
It was high overcast in late afternoon at the Alligator Farm in St. Augustine FL. The image was processed in LR with a high key preset I developed for my cloudy afternoon bird shots.
I was trying to catch the egret hovering just before landing in his nest building work.

2nd Place
A Tasty Morsel - Moti Hodis

3rd Place
Columns - Devora Wise
