

# My Passion: Travel and Nature Photography

**KARL SCHANZ, APSA, MNEC**

*BCC Education Program Presenter*

**Tuesday Evening, September 23, 2008**

## Program Description

Travel and Nature Photography in three parts:

Part One covers a trip Karl made to Alaska last October. A lot of photographers can only dream of going on a trip like this as Alaska is very expensive, and it takes a lot of planning to go in the wilderness. This portion will highlight Karl's fine images.

Part Two is audio-visual (42 minutes) and will include images from Karl's three trips to Africa. One segment has songs in English and Swahili.

Part Three is titled: *Flower Photography: Spring is here.*

## Bio

Karl Schanz, APSA, MNEC is a master photographer specializing in nature who has been mesmerizing New England Council of Camera Club (NECCC) conferences for many years with his outstanding images. A judge, lecturer and exhibitor, he presents programs throughout the United States and Canada. A member of the Greater Lynn Photographic Association, Lowell Camera Club, and the Massachusetts Camera Naturalists (a by-invitation-only nature organization), Karl's retirement has allowed him to travel and photograph extensively throughout the world.
